Thousands of years ago, in ancient Egypt when Pharaohs or even Kings died, they mummified them. They poured natron over the body. They were buried in pyramids with their treasures.

My favorite part of the book was when, ancient Egyptians believed that after people died, they started a new life in a wonderful place called Afterworld.

I would recommend this book because it gives information on ancient Egyptians. I learned when they died, how they buried and preserved the bodies of their Kings and Pharaohs.

My favorite character is Mrs. Whiskers. My favorite part was when Mrs. Whiskers brought a lobster trap for the baby shower.

Animorphs The Warning #16

This book is about a group of six kids who have unique powers. They have the ability to morph into any animal possible. All they need is the animal's DNA.

The villains they have to fight are very evil. They take over regular human bodies and use them as human-controllers (henchmen). In this book, the kids find out over the Internet that there may be other kids just like them. Toward the end of the story, the kids make a startling discovery.
READ TO FIND OUT THE REST.

My favorite character is one of the animorphs named Marco. He is a funny boy who always keeps the mood going. He spices up the story with his hilarious jokes.

I would recommend this book for all action and adventurous book lovers. This book takes you through a non stop adventure. With a little bit of comedy and a heap of action, you won't want to put this book down. I give this book 4 stars ★★★★★ out of 5. There were some parts I think could've been explained better.

Mole needs money to buy new books. Shrew needs money to buy new

flower seeds. Together they are looking for jobs. But something goes wrong with every job they get, especially with Mole.

My favorite character is Shrew. My favorite part of the book is when Mole thought that hopping was an order on page 37.

I will recommend the book because it's talking about animals like Mole and Shrew. Also the book is a little bit funny.
